Dear Mr Garroway

Cambridge Sports Lakes

Thank you for your letter dated 7th November 2006.

In response to that letter, attachment A and the meeting on 24th October regarding drainage issues, I summarise below what I believe to be the matters which you are to address:

1. It would be helpful if you could send me draft minutes on meetings held on 18th and 24th October (the latter to be sent also to the District Councillors);
2. Extended cross-sections as requested in my letter of 13th September 2006;
3. Corrected contour plan in regard to comments made by Councillor Hazel Smith;
4. Exploration as to whether the water level of the storage lake is to be reduced; and
5. Confirmation by way of a plan that the training lake is to be reduced by a lane to ensure retention of adjacent trees.

Once the above matters have been addressed, a further 3 week consultation exercise with Parish Councils will take place.

The Balance Sheet of habitat gains and losses will be the subject of a separate consultation exercise with the Council's Ecologist, Wild Life Trust and Natural England (formerly English Nature, amongst others).

Once these consultations periods have expired, the Planning Application will be reported back to Planning Committee, probably on 7th February, given the outstanding work awaited from you, a 3 week consultation period and the need to prepare a Committee report some 2½ weeks in advance of the meeting and incorporating all the written comments received from consultees.

23 NOV 2006

In the meantime I shall contact Craig Drury to find out how the County Council is progressing with assessment of the 750 space car park event and the safety audit of the A10/Car Dyke Road junction.

I therefore look forward to receiving the above information from you and confirmation that you agree to an extension of time to determine the Planning Application until 9th February 2007.

Yours sincerely
